4. Mitigation - The National Academies Press

Mitigation actions taken to prevent or reduce the risk to life, property, social and economic activities, and natural resources from natural hazards is

[What is Mitigation? | FEMA.gov](#)

Mitigation is the effort to reduce loss of life and property by lessening the impact of disasters. In order for mitigation to be effective we need to take action now before the next disaster to reduce human and financial consequences later (analyzing risk, reducing risk, and insuring against risk).

1.6. Disaster Prevention & Mitigation - WHO

to drop the term Mitigation and use only Prevention. The term Mitigation can be comprised in the term Prevention. Mitigation means to reduce the severity of the human and material damage caused by the disaster. Prevention is to ensure that human action or natural phenomena do not result in disaster or emergency. Primary
