The new edition of this award-winning volume reflects the latest events in the climate crisis while providing balanced coverage of the key institutions, issues, laws, and policies.
The Global Environment: Institutions, Law and Policy ...
The Global Environment meets the need for an authoritative assessment of the state of international environmental institutions, laws and policies at the end of the 20th century. The book examines disagreements over the meaning of sustainable development, problems inherent in implementing environmental policies and the conflict over the exclusion of developing countries from the Kyoto Protocol.
