Indeed, it is through the design of a video game's world

that players from different cultures will be encouraged to adopt a ludic attitude, in order to get them involved in its fictional universe. Therefore, game design concerns what I call ludic mediation, that is, the process of transmitting the will-to-play to someone. To understand this process, I will show at first that when

The Video Game Theory Reader - Google Books

In the early days of Pong and Pac Man, video games appeared to be little more than an idle pastime. Today, video games make up a multi-billion dollar industry that rivals television and film. The Video Game Theory Reader brings together exciting new work on the many ways video games are reshaping the face of entertainment and our relationship
